RECEIVED THE
SECRETARY

Dear Secretary Salas:

This letter is written in regard to a proposed Downeast LNG Project, to be located in the Mill Cove area of Robbinston, ME. After attending meetings locally and in St. Andrews, New Brunswick, Canada, I have come to the conclusion that this would not be a fit project for this area. Since the pipeline would pass through many neighborhoods, near schools and roads, extreme danger could always be a possibility. Terminals should be well away from the people, and from areas critical to the fishing industry, which is how many people in this area earn their living. We ask you to please do all you can to see that this does not happen. Thank you.

Sincerely yours,

Ruth E. Maloney
